

JEFFREY ISIBOR DIKEWONSI

Certified Full stack Developer

+234-8034-909-154 @ contact@jeffreysisibor.dev github.com/dikewonsi Abuja, NIG

SUMMARY

Experienced web developer and software tester looking for advanced programming position, with a specialty in bringing ideas to a fruition through programming. Certified in PHP, having experience as a freelancer for various projects with varying features, including a wallet top-up feature for an e-commerce platform built from scratch with PHP and Javascript. Self-motivated, detail-oriented, and creative problem-solver. Proficient in both coding and design, as well as software testing and debugging. Fluent in PHP, JavaScript, and other coding languages. Excels in team environments and leadership roles, having managed over 30 web and software development projects.

EDUCATION

BSc. in Mathematics and Computer Science

National Open University of Nigeira

2013 - 2020 Abuja, NIG

GPA
4.1 / 5.0

EXPERIENCE

Full stack Developer

Irokolifestyle

10/2022 - 12/2022 Lagos, NIG

Iroko is a leading furniture and lifestyle brand and the pioneer of Nigeria's first self-assembled furniture. I worked as a full-stack developer here, responsible for solely building, deploying and maintaining internal web applications.

- Developed 80% percent of the e-commerce platform with core procedural PHP coding
- Integrated External APIs onto the e-commerce platform with the help of Javascript
- Worked with Javascript to develop automated solutions to include web interfaces using HTML, CSS, JavaScript and Web services scoring over 80 on lighthouse for best practices

Full Stack Developer

Royal Events Management

2022 - 2023 Nasarawa, NIG

A nationwide events management brand with headquarters in Lagos State, Nigeria.

- Simultaneously created & maintaining all features of the booking software
- Increased company data sorting by 30% within 2 months after developing and implementing features
- Developed UI design using CSS, HTML, and Javascript; websites scoring over 100 on Lighthouse for best practices

Web Designer

SHBC

2021 Calabar, NIG

A marine, onshore, technical, civil engineering and construction support, project management, equipment supply, and business consultancy services company, fully incorporated under the laws of the Federal Republic of Nigeria since 2017, and now with international footprints in Texas, the United States of America, for haulage and trucking.

- Designed the website using the help of the vanilla bootstrap framework.
- Hastened the project by purchasing a template from themeforest and then editing the code, to have the desired change on the original design.
- Achieved a score of 83 on lighthouse for best practices.

SKILLS

Client-Side

HTML CSS JS Bootstrap

Tailwind JQuery

Server-side

PHP Laravel MySQL Postman

Go Cpanel Wordpress Xampp

Development & Operations

GIT Github Scrum Agile

MySQL Workbench

PROJECTS

ALAT - Online Banking System

09/2020 - 09/2020 Abuja, NIG

<https://github.com/Dikewonsi/alat>

Online Banking System - Intra-bank Transfers

- Developed 90% of the banking system with PHP, MYSQL, Javascript.
- As a final project in my pursuit of a Certificate in Software Development, I dedicated alot of time and mental power into developing this project, making it score over 90 on lighthouse for best practices.
